

Website Navigation for SEOAce - Real Estate Websites

This Worksheet is where you select the horizontal links for your website. Please note: There is a limit to the number of links you can have in the horizontal navigation, or else the layout will wrap. There is no way to adjust the page to suit more than seven (7) horizontal navigation links.

If you want to replace an existing page, please write the page you want created in the blank provided. Please note, you can add or remove pages whenever you choose, once your site is launched. These are the only pages that are included with the website build. Additional pages may be added by you once the site is launched.
